

PLANNED EVENTS

OPEN SCIENCE FAIR 2019

16 – 18 September 2019, Porto, Portugal

OpenAIRE, FIT4RRI, the EOSC Secretariat and FAIRsFAIR are happy to announce the second edition of the Open Science Fair, that will take place in Porto (Portugal) on September 16-18, 2019.

Open Science Fair will critically highlight the elements required for the transition to Open Science: e-infrastructures and services, policies as guidance for good practices, research flows and new types of activities (disseminate mine, review, assess, etc.), the roles of the respective actors and their networks.

The conference will include keynotes by distinguished

speakers, roundtable discussions, hands-on workshops and training sessions, as well as a poster and a demo session. It will bring together different stakeholder perspectives and will suggest roadmaps towards implementation on targeted aspects of Open Science, scholarly communication in national settings and FAIR implementation.

Target audience: Policy makers and funders, researchers, research Infrastructures and research communities, repository managers, publishers and content providers, libraries, research administrators, service providers and innovators.

More information on the call for proposals, registrations and programme at <https://www.opensciencefair.eu/>

ENYGF - EUROPEAN NUCLEAR YOUNG GENERATION FORUM

23 – 27 June 2019, Ghent, Belgium

The conference will cover both 'classical' and 'less classical' applications of nuclear – at least as we often perceive it in Europe. These 'less classical' aspects are indeed crucial for the advance of life standards, in Europe in the one hand, but then especially in developing countries. These advances will go through better access to energy, alimentation – purification of water and food conservation, improved land and agricultural practices, disease control and the further development of diagnostics and therapy in the medical sector, in particular for what concerns cancer treatment. In all field, nuclear applications might play a decisive role!

The conference focuses on the role of nuclear for social and economic development, in particular in the medical field. Considering the wide range of expertise in the Belgian and Dutch nuclear sectors.

BUILDING OPEN SCIENCE IN EUROPE: THE ROAD AHEAD FOR THE EOSC COMMUNITY AND THE EU MEMBER STATES – SAVE THE DATE!

20 June 2019, Tallinn, Estonia.

We are excited to announce the workshop “Building Open Science in Europe: The road ahead for the EOSC community and the EU Member States”

eInfraCentral invites current and potential users of the European Open Science Cloud, service providers from Research Infrastructures and e-Infrastructures, national and EU-level policy makers, and all other interested stakeholders to discuss further implementation steps for the EOSC. The workshop will highlight the achievements in the development of the EOSC Portal and will continue the discussion on how to build a user-centric EOSC and implement it across the EU Member States and Associated Countries.

This free-of-charge workshop is organised and hosted by eInfraCentral in cooperation with other EOSC-related projects and initiatives and as one of the key projects in the implementation of the EOSC Portal.

[More information](#) about the programme and registration will come soon.

FISA2019 and EURADWASTE'19 Conferences

4 – 7 JUNE 2019

4-7 June 2019
Pitești, Romania

FISA 2019 • **EURADWASTE '19**
9th European Commission Conferences on EURATOM Research and Training in
Safety of Reactor Systems Radioactive Waste Management

The European Commission is pleased to announce and to invite you to the **FISA2019 and EURADWASTE'19 Conferences** co-organised together with the **Ministry of Research and Innovation and the Institute for Nuclear Research from Romania**, under the **Romanian Presidency of the Council of the EU in 2019**. **FISA 2019 and EURADWASTE '19 will engage with all relevant stakeholders:** research and training organisations, academia, industry, technology platforms, European fora and European civil society, and International Organisations to discuss the state of play of R&D, key challenges addressed at national, European and international levels on Research and Innovation policies, synergies and partnerships benefitting research and innovation programmes, and future perspectives. **Invited speakers will present the progress and key achievements of some 90 projects** carried out, since the previous conference edition in 2013, as part of the 7th and Horizon 2020 Euratom Research and Training Framework Programmes.

FISA 2019 and EURADWASTE '19 will also **welcome any complementary abstracts, papers and posters** related to the sessions and Euratom projects, and **Technical Workshops** will be set up.

Young generation of nuclear scientists are encouraged to participate in the **FISA 2019 and EURADWASTE '19 Poster and PhD Awards** to be handed out at this occasion, as well as in the **ENEN PhD Event & Prize** organised in a parallel session, to promote and support the work of young researchers in Europe. **Technical visits** to the TRIGA research reactor and Hot Cells facilities (at the Institute for Nuclear Research, Pitesti), Nuclear Fuel Factory (Pitesti), ELI – Extreme Light Infrastructure (in Bucharest-Magurele), and Cernavoda NPP and Waste Management facilities (Cernavoda–Constanta) will be organised on June the 7th. **Details on the objectives, topics, programme structure and participation guidelines** can be found in the first announcements of FISA 2019 and EURADWASTE'19, attached to this invitation.

NUCL-EU 2020 will take this opportunity to organize back to back to the conference a **Training and a Partnering Event** about the new calls EURATOM 2019-2020 under Horizon 2020. You will receive further information in due time.

International Congress on Advances in Nuclear Power Plants

12-15 MAY 2019

The International Congress on Advances in Nuclear Power Plants (ICAPP) is cosponsored by the American Nuclear Society [ANS], the Atomic Energy Society of Japan [AESJ], the Korea Nuclear Society [KNS], the French Nuclear Society [SFEN], and a number of major international nuclear societies.

The meeting's annual host location cycles through the U.S., Europe, and Asia, giving it its global flair.

ICAPP provides a forum for nuclear industry leaders to exchange information, present results from their work, review the state of the industry, and discuss future directions and needs for the deployment of new nuclear power plant systems around the world.

Uniting the business and technical interests of participants and exhibitors, ICAPP attracts 300+ specialists from around the world, offers more than 250 scientific/technical presentations in plenary and parallel sessions, and features additional panel and discussion sessions.

Annual Meeting on Nuclear Technology – 50th Anniversary

7 – 8 May 2019, Berlin, Germany

The AMNT features a comprehensive 2-day-programme with many various formats, divided in three Key Topics:

- Outstanding Know-how & Sustainable Innovations
- Enhanced Safety & Operation Excellence
- Decommissioning Experience & Waste Management Solutions

Before the various sessions designed for scientific exchange, the AMNT will start with the Plenary Session when political, economic and social issues will be discussed. The Focus Sessions take a detailed look on current and specific issues with technical and political relevance and the Technical Sessions highlight scientific and industrial views on latest technologies and new research. The Young Scientists' Workshop awards young scientists for best graduate thesis and the Nuclear Energy Campus leads young people through the world of radioactivity, nuclear technology and radiation protection.

14th EUROPEAN NUCLEAR ENERGY FORUM

29 – 30 April 2019, Prague, Czech Republic

The 2019 conference will focus on the topic "Ageing and long term operation of nuclear power plants in Europe – challenges and opportunities" and "2050 Long term strategy", as recently outlined in the strategic long-term vision for a prosperous, modern, competitive and climate-neutral economy by 2050 – A Clean Planet for All.

EPERC 1st INTERNATIONAL CONFERENCE SAFE AND INNOVATIVE PRESSURE EQUIPMENT

1 – 3 APRIL, 2019, ROME, ITALY

To support competitiveness of the European Standardization for the Pressure Equipment (PE) Industry, the “European Pressure Equipment Research Council” (EPERC) launches its first International Conference on Safe and Innovative Pressure Equipment.

The conference promises to be the outstanding international forum for participants to meet stakeholders and to exchange ideas on an advanced pressure equipment industry. The Conference will be the platform for more than 50 papers, Workshops and Panel Sessions.

This conference is co-organized by INAIL, the National Institute for Insurance against Accidents at Work.

PAST EVENTS

ACI's 6th Nuclear Decommissioning and Waste Management Summit

20 -21 February 2019, London, UK

The two day event will bring together senior executives from the key industry stakeholders from Energy Providers, Plant Owners & Operators, Industry Consultants & Experts, Lawyers,

Purchasing and Procurement Management Professionals, Nuclear Regulators, Nuclear Technology Companies, Industry Investors, Asset Management Companies, Nuclear Engineers and Safety Inspectors, Decommissioning Managers, Waste Management Companies, Governmental representatives responsible for nuclear power development, Radiation and health protection agencies, Packaging & Transportation Officials, Academic Institutions, Research Organisations and Market Analysts.

Nuclear Decommissioning and Waste Management Summit 2019 will provide excellent opportunities to learn from high profile speakers sharing their knowledge and expertise on overcoming the current challenges involved in the decommissioning of nuclear power plants and radioactive waste management.

You will also have the chance to network with industry leaders from across the entire value chain, to maximise the opportunities arising in the nuclear decommissioning sector, whilst also discovering the latest technologies and solutions that facilitate the storage and management of spent fuel.

You are kindly invited to ACI's 6th Nuclear Decommissioning and Waste Management Summit to discover the key topics and updates from the latest developments in the essential areas of nuclear power plant decommissioning and radioactive waste management.

THE APPLICATION OF REMOTE AND ROBOTIC SYSTEMS IN NUCLEAR BACKEND ACTIVITIES – WAY FORWARD IN SYSTEM IMPLEMENTATION

30-31 JANUARY 2019, MARCOULE, FRANCE

The purpose of this workshop is to organise a wide international dialogue between parties interested in developing and implementing remote and robotic systems in projects on radioactive waste management and decommissioning (the backend of the nuclear fuel cycle). The participants are invited to discuss possible approaches to developing a common understanding on how to address the main requests of final users of systems and on making strategic decisions in order to support the implementation of these systems. The...

INTERESTING NEWS

EURATOM – HORIZON 2020 TRAINING ON PROPOSAL PREPARATION

5 – 6 MARCH 2019, PRAGUE, CZECH REPUBLIC

Within the frameworks of the NUCL-EU 2020 project an international training for stakeholders was organised in Prague, Czech Republic, on the 4th and 5th March 2019. The aim of this training was to ensure the best support to Horizon 2020 potential applicants and raise the average quality of proposals submitted under the EURATOM Research and Training Programme.

Some twenty participants could enjoy the support of experienced EURATOM NCPs

(from Italy, Slovakia and the Czech Republic) listening to their presentations, participating in interactive tasks and through the consultation on project ideas.

Naturally, most of the participants were from the Czech Republic, but there were other countries as well (Belgium, Croatia, Greece, Latvia, Romania and Slovenia). It was an occasion to meet colleagues from the EURATOM community, both from universities and the research institutions, as well as some policy makers.
